Educational Objective:

To help elementary students memorize the basic addition, subtraction, multiplication and division tables essential for math.

Game Description:

YodelOh™ Math Mountain is a simple math drill exercise cleverly disguised as an addictive carnival game. To win, players must correctly solve as many problems as possible before Hans the Hiker takes a header off the cliff. Take too long to answer a problem — or get it wrong, and Hans takes one step up the hill. Score a Backward Bonus and he takes a step back. It's all part of the fun in the fast-tapping Alpine adventure game that includes more than 1,300 problems, one stylin' hiker and a herd of cheesed off sheep.

Features:

- All the addition/subtraction binomial equations for numbers 1-20.
- All the multiplication/division binomial equations for numbers 1-12.
- Five operator-based game modes (+, -, x, ÷ and +/-/x/÷).
- Addictive play action that makes learning fun.
- High-score charts that track the best 15 games on all five modes.
- Universal app with full retina support for iPad and iPhone 5.

What you'll love:

Fun Game Action: YodelOh™ Math Mountain replaces boring flashcards with fast-paced game action that encourages students to learn their math tables in a whole new way.

Graduated Difficulty: As players score points, the questions get harder, challenging students at every level. This unique mechanism makes it possible for beginners to play while continually challenging them to go further in the game.

Player Recognition: YodelOh™ Math Mountain tracks the 15 highest scores in each operator mode, making it an excellent motivational tool for the classroom. Additionally, the top player in each operator is displayed on the main menu, providing the ultimate incentive for goal-focused learners.

Developmental Skill Building: In YodelOh™ Math Mountain, players must successfully track multiple objects, prioritize visual information and make fast decisions, helping students improve their developmental skills while they master their math.

Carnie Charm: With it's original carnival soundtrack — complete with authentic yodeling, YodelOh™ Math Mountain captures all the fun and flavor of the traditional fairway games that have been a staple of summer carnivals for countless generations.

Game Levels

YodelOh™ Math Mountain follows a simple accelerated game model, with players receiving harder questions and less time to solve them as the game progresses.

BASIC GAMEPLAY

CUCKOO CLOCK:
Track your score here.

HIGH SCORE MARKER:
Appears each time you beat your highest score.

BONUS TRACKER:
20 hits with no mistakes triggers Backward Bonus.

BACKWARDS BONUS:
Tap to move Hans back down the hill.

EQUATIONS:
This is the problem you're trying to solve.

TARGETS:
Tap the correct answer and score 10 points.

SHEEP:
Tap sheep to stop their advance and pick up points.

RAM BONUS:
Tap for a fun multiplier bonus.

OBSTACLES:
Avoid hitting wrong answers and Swiss maidens.
